² Numbers of discharges are weighted national estimates based on 100% of the data from the HCUP-3 Nationwide Inpatient Sample. Results are not presented for any procedure category for which the unweighted number of discharges is less than 70. Estimates presented here have a relative error of less than 30%. Out of the "All Discharges" category, 7,380 discharges had invalid procedure codes and are not represented in the table details.

Acronyms used in Table 2: CNS—central nervous system; GI—gastrointestinal; LOS—length of stay in hospital (in days); and OR—operating room.
